

SAFETY DATA SHEET

SuperN 10-3-0.3

Organically Sourced Seed-Placed Fertility Pellet

SDS Date: April 6, 2026

Revision: 1.0

Format: GHS / WHMIS 2015

SECTION 1: IDENTIFICATION

Product Name: SuperN 10-3-0.3

Product Description: Organically Sourced Seed-Placed Fertility Pellet

Recommended Use: Agricultural fertilizer for crop production

Restrictions on Use: Not for use on pasture land or grazing areas for ruminants. Not for human or animal consumption.

Manufacturer / Supplier:

Terra Preta Organics

836 1st Ave SE, Sundre, AB T0M 1X0, Canada

Phone: 403-669-8669

Email: info@terrapretaag.com

Emergency Contact: Lee Martineau — 403-669-8669

SECTION 2: HAZARD IDENTIFICATION

GHS Classification: Not classified as hazardous under GHS / WHMIS 2015

This product is an organic fertilizer derived from natural materials. It is not classified as a hazardous product under the Hazardous Products Act (WHMIS 2015) or GHS criteria. However, dust may cause irritation to eyes, skin, and respiratory tract upon prolonged exposure. Contains materials of animal origin (blood meal, bone ash).

Precautionary Statements:

P261 — Avoid breathing dust.

P264 — Wash hands thoroughly after handling.

P270 — Do not eat, drink or smoke when using this product.

P280 — Wear protective gloves, dust mask, and eye protection.

P302+P352 — IF ON SKIN: Wash with soap and water.

P304+P340 — IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P305+P351+P338 — IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present.

P501 — Dispose of contents/container in accordance with local regulations.

SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

Product Type: Mixture — organic fertilizer blend

Ingredients: Blood meal, feather meal, black soldier fly larvae frass (BSFL frass), bone ash, biochar, zeolite, calcium bentonite

Component Information:

Component	CAS Number	Approximate %
Blood meal	68911-49-9	Proprietary
Feather meal (hydrolyzed)	92062-47-4	Proprietary
Black soldier fly larvae frass	Not assigned	Proprietary
Bone ash	65996-82-9	Proprietary
Biochar (wood-derived)	7440-44-0 (carbon)	Proprietary
Zeolite (clinoptilolite)	12173-10-3	Proprietary
Calcium bentonite	1302-78-9	Proprietary

All components appear on the CFIA List of Primary Fertilizer and Supplement Materials.

SECTION 4: FIRST-AID MEASURES

Inhalation: Move person to fresh air. If breathing difficulty persists, seek medical attention.

Skin Contact: Wash affected area with soap and water. Remove contaminated clothing. If irritation develops or persists, seek medical attention.

Eye Contact: Rinse cautiously with clean water for at least 15 minutes. Remove contact lenses if present and easy to do. If irritation persists, seek medical attention.

Ingestion: Rinse mouth with water. Do not induce vomiting. Seek medical attention if symptoms occur.

Most Important Symptoms: Dust inhalation may cause coughing and respiratory irritation. Prolonged skin contact may cause mild irritation.

SECTION 5: FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: Water spray, dry chemical, foam, carbon dioxide.

Unsuitable Extinguishing Media: None known.

Specific Hazards: Organic material may smoulder when heated. May produce irritating smoke and fumes including carbon oxides and nitrogen oxides.

Protective Equipment: Firefighters should wear self-contained breathing apparatus (SCBA) and full protective gear.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal Precautions: Wear appropriate personal protective equipment (gloves, dust mask, eye protection). Avoid generating dust.

Environmental Precautions: Prevent material from entering waterways, sewers, or drainage systems. Contain spill if possible.

Cleanup Methods: Sweep or vacuum spilled material. Collect in suitable containers for disposal or reuse. Avoid generating airborne dust during cleanup.

SECTION 7: HANDLING AND STORAGE

Handling: Avoid generating and breathing dust. Wash hands thoroughly after handling. Do not eat, drink, or smoke while handling. Use in well-ventilated areas.

Storage: Store in a cool, dry place away from direct sunlight. Keep sealed in original packaging when not in use. Store away from food, feed, and drinking water. Shelf life: 24 months in original packaging.

Incompatible Materials: Strong oxidizers, strong acids.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational Exposure Limits: No specific OELs established for this product. For nuisance dust: ACGIH TLV-TWA 10 mg/m³ (inhalable) / 3 mg/m³ (respirable).

Engineering Controls: Use adequate ventilation to maintain dust levels below applicable limits. Local exhaust ventilation recommended where dust is generated.

Respiratory Protection: NIOSH-approved dust mask (N95 or equivalent) when dust is generated.

Hand Protection: Chemical-resistant gloves (nitrile or equivalent).

Eye Protection: Safety goggles or glasses with side shields.

Skin Protection: Wear long sleeves and work clothing to minimize skin contact.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Brown to dark brown compressed pellets
Odour	Mild organic / earthy odour
pH (10% solution)	6.5 – 7.5
Physical State	Solid (pellet)
Melting Point	Not applicable (decomposes)
Boiling Point	Not applicable
Flash Point	Not applicable
Flammability	Not readily flammable; may smoulder
Vapour Pressure	Not applicable
Specific Gravity	Approximately 1.1 – 1.3
Solubility in Water	Partially soluble; slow release
Bulk Density	Approximately 700 – 900 kg/m ³

SECTION 10: STABILITY AND REACTIVITY

Chemical Stability: Stable under recommended storage conditions.

Possibility of Hazardous Reactions: None known under normal conditions of use.

Conditions to Avoid: Excessive heat, moisture, and direct sunlight. Avoid contact with strong oxidizers and acids.

Incompatible Materials: Strong oxidizing agents, strong acids.

Hazardous Decomposition Products: Thermal decomposition may produce carbon oxides (CO, CO₂), nitrogen oxides (NO_x), and sulfur oxides (SO_x).

SECTION 11: TOXICOLOGICAL INFORMATION

Acute Toxicity: Low toxicity expected based on composition of natural organic materials. No LD50 data available for the finished product.

Skin Irritation: Prolonged or repeated contact may cause mild skin irritation.

Eye Irritation: Dust may cause mechanical irritation to eyes.

Respiratory Irritation: Inhalation of dust may cause irritation of the nose, throat, and lungs.

Sensitization: No specific sensitization data available. Persons with allergies to animal-derived proteins should exercise caution.

Chronic Effects: No chronic toxicity data available for this product. Repeated excessive dust exposure should be avoided.

Carcinogenicity: None of the components are listed as carcinogens by IARC, NTP, or ACGIH.

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity: This product is derived from natural organic materials and is expected to have low toxicity to aquatic organisms at recommended application rates. Excessive application near waterways may contribute to nutrient loading.

Persistence and Degradability: Biodegradable. Components will decompose naturally in soil.

Bioaccumulation Potential: Not expected to bioaccumulate.

Mobility in Soil: Low mobility; designed for slow release in the root zone.

Other Adverse Effects: Over-application may lead to nutrient runoff. Apply according to label directions and soil test recommendations.

SECTION 13: DISPOSAL CONSIDERATIONS

Disposal Methods: Dispose of unused product and empty containers in accordance with federal, provincial, and local regulations. This product may be land-applied at agronomic rates as a fertilizer.

Empty Containers: Rinse containers thoroughly. Dispose of or recycle in accordance with local regulations.

Waste Classification: Not classified as hazardous waste under Canadian regulations when disposed of according to directions.

SECTION 14: TRANSPORT INFORMATION

UN Number: Not regulated

UN Proper Shipping Name: Not regulated

Transport Hazard Class: Not regulated

Packing Group: Not regulated

Environmental Hazards: Not classified as a marine pollutant

Special Precautions: Keep dry during transport. Secure loads to prevent shifting. Transport in original sealed packaging.

This product is not classified as dangerous goods under the Transportation of Dangerous Goods Act (Canada), DOT (US), IATA, or IMDG.

SECTION 15: REGULATORY INFORMATION

Canadian Regulations:

- Regulated under the *Fertilizers Act* and *Fertilizers Regulations* (Canada).
- All ingredients appear on the CFIA List of Primary Fertilizer and Supplement Materials. Product is exempt from registration.
- Contains materials classified as prohibited material under the *Health of Animals Regulations* (blood meal, bone ash). Ruminant feeding restrictions apply.
- WHMIS 2015: Not classified as a hazardous product under the *Hazardous Products Act*.

International Regulations:

- Not listed under the Stockholm Convention, Rotterdam Convention, or Montreal Protocol.

SECTION 16: OTHER INFORMATION

SDS Prepared By: Terra Preta Organics — Product Safety
